Agilent 7693 G4514A Sample tray

The G4514A Sample Tray is designed for the Agilent 7693A ALS system. Noother sample tray models are compatible. Samples may be handled entirely with the 16-sample standalone turret or the 3-sample transfer turret supplied with the injector.
The G4514A Sample Tray has a capacity of 150 samples. The 150 sample vial tray allows longer unattended operation (50% greater than the 7683B).
